ANGLO-INDIAN AND GENERAL AGENCY.

MESSRS. WILLIAM WATSON & Co., 27, Leadenhall Street, London, E. C., beg to inform their Constituents, Messes, Clubs, and the public generally, that they send out SUPPLIES FROM HOME (not necessarily in large quantities—at a time) of every description at wholesale prices direct from any manufacturer or dealer that may be named, original Invoices being rendered to their constituents. Purchasers have found this plan the most convenient as NOT being necessary to remit cash with the orders) and economical that has as yet been offered to residents in India. Orders can be sent either direct to them in London, or through their corresponding firm in Bombay, Messrs. William Watson and Co., 28, Apollo Street, for shipment as may suit, who will send forward the orders, receive remittances, and furnish all particulars that may be desired.

TO CONTRACTORS.

SEALED TENDERS will be received by the Commissary of Ordnance, Mhow, up to 10 a. m. on TUESDAY, 22nd February, 1881, for the SUPPLY of ORDNANCE and other STORES (more or less) to the Arsenal at Mhow, from 1st April, 1881 up to the 31st March, 1882.

II.—Printed forms of "Lists or Schedules" of the Stores (more or less) for the supply of which tenders are invited, and the form of contract deed which, in the event of a tender being accepted, must be signed and sealed by the contractors, affixing on it a stamp of the value of one rupee, are procurable at this office daily (Sundays and holidays excepted.)

III.—Tenders will only be received on these printed forms, two of which are procurable on application at this office for two rupees.

IV.—These lists or schedules should be in duplicate and in English, and should specify in words as well as in figures the rate at which each description of article named in them will be delivered, and should be accompanied by a statement, that the tenderers have inspected the authorised patterns of each article they tender for.

V.—Tenders should be accompanied by a deposit of Rupees 1,200 as earnest money, which deposit will be returned on execution of the contract deed or rejection of the tenders.

VI.—Tenders not complying with these conditions will be rejected.

VII.—The lowest tender will not of necessity be accepted, and no reason will be given for rejecting any tender.

VIII.—The approval or rejection of tenders rests with the Inspector General of Ordnance, who reserves to himself the right of rejecting any tender without explanation, or any items in a tender, the rates of which are not approved.

IX.—Tenders will be opened as this office at 12 o'clock noon on Tuesday, the 22nd February, 1881. Parties tendering are invited to attend.

X.—In the case of an accepted tender, the contractor must be prepared to affix an agreement stamp of one rupee to the contract deed.

XI.—In the event of the party whose tender is accepted failing to take up his earnest money will be forfeited.

XII.—On failure of the contract it shall be competent for the Inspector General of Ordnance to confiscate the whole or any part of the security deposit to Government, at his own discretion.

XIII.—Parties tendering are particularly requested to give their address in full.

COMMERCIAL INTELLIGENCE

TUESDAY EVENING, FEB. 8.

CONSOLS in London yesterday were unaltered at 98⅜ and French Rentes at 119⅞; but Enfaced Rupee Paper was again lower, Fours by ¼ at 81¼ and Fours-and-a-half by ⅛ at 88⅜.

Coffee, Cocoanut-oil, and Seeds are all as previously quoted. Wheat is reported dull, and 6d. per quarter lower to arrive. Reuter's Metal quotations show no change of any kind.

Piece-goods in Manchester yesterday were dull; and Cotton in Liverpool was also dull, the day's sales being estimated at 8,000 bales. Spot prices were unaltered, but Surats, to arrive, were lower, F. G. F. Omra shipment having changed hands at 5¼d. and M. G. Broach, Feb.-March shipment, Canal, at 6d. In New York, according to Reuter, ready Mid.-Uplands had advanced from 11 9-16 to 11 13-16, while May shipment had dropped from 11·56 to 11·26 cents per lb. It is perfectly evident that one of the quotations must be wrong, and judging from the tenor of private advices, there can be little doubt that the mistake is in the ready quotation, notwithstanding the receipts at the ports being comparatively limited. The American figures to date give the following comparisons:—

	1881.	1880.	1879.
Two days' receipts	21,000	35,000	35,000
Three days' do.	47,000	46,000	49,000
Total receipts since 1st Sept.	4,142,000	3,836,000	3,316,000

EXCHANGE.—The market opened at yesterday's closing rates, but before long it became evident that no great strength existed in the market, and buyers of private bills began to offer a reduction of 1-32d. Later in the day a decline of 1-32d. all round was established, and possibly even better could have been done at the close for ready private bills. The feeling just now is undoubtedly weak, and failing a recovery in the tone of our export, trade seems likely to become weaker still. We quote:—

Bank Bills on demand	Rs. 7	19-32d.	per rupee	
Do. telegraphic	Rs. 7	9-16d.		
Do. 3 months' sight	Rs. 7	25-32d.		
Credits, 3	"	"	Rs. 7	7-8 to 29-32d.
Documents 3	"	"	Rs. 7	29-32d.
Francs, 3	"	"	2f.	10c.

On Calcutta we still quote demand drafts at 1-16 per cent. premium.

GOVERNMENT PAPER to-day has been dull in the extreme, and rates may be quoted ½ to ¾ per cent. lower. Even at the decline there has been very little done, and the increasing firmness in the local money market, in addition to the adverse advices from home is evidently beginning to effect the position.

SHARES.—Banks and Land Companies continue unaltered. In Press Companies we quote a decline of Rs. 20 in East India, Rs. 7½ in New Indian, and Rs. 2½ in Mofussil. Spinning and Weaving Mill shares have been quieter all round, and our quotations exhibit a general decline of Rs. 5 per share.

COTTON has been very quiet, but looking to the tenor of the New York and Liverpool advices, there has been nothing like the decline which might have been expected. Ginned Broach has been done at Rs. 2 per candy lower, both for March and April; but in Omras and Dholleras the fall has not been more than Re. 1. Even at that there has been to the full as many buyers as sellers, and it has been a subject of general remark that Bombay has probably been the firmest large Cotton market in the world to-day. Something must be allowed for the peculiarity of our position, inasmuch as we are now in a great measure dependent on Omras for our supplies, and that even of this growth arrivals look like being restricted before long by the dearth of water on the main roads. In addition to this, there has also been a certain strengthening influence in the numbers of early sales at higher prices which have had to be covered here. When these are fairly out of the market there will be a fair chance of our values approximating more closely to home quotations. We quote at the close:—

Good Omra, March	delivery	....	Rs.	211 per candy
F. G. F. ..	"	....	..	198 "
G. F. ..	"	....	..	188 "
Good Broach. ..	"	....	..	228 "
Good Dholleras, April ..	"	....	..	210 "

SEEDS and WHEAT show no alteration of any kind.

FREIGHTS for Liverpool have been a trifle steadier to-day at 33s. 9d. via Canal, but for other ports no change of any kind has taken place.

PIECE-GOODS are quiet at unaltered values. The clearances from the bazaar only run 400 to 500 packages a day, and from first hands there is next to nothing, either on the spot or to arrive.

COALS are quiet, and to arrive there is nothing doing, sellers being unable to operate at existing quotations. On the spot, however, some re-sales are reported to have been made at Rs. 16 for Cardiff on the bunder, and other kinds in proportion.

MILITARY INTELLIGENCE.

THE BOMBAY VOLUNTEER RIFLE CORPS.

REGIMENTAL ORDERS

BY LIEUT.-COL. COMMANDANT W. S. HEWETT.

Bombay, February 8, 1881.

The Regiment will parade on Saturday, the 12th instant, at 4-15 p. m., at the Town Hall. Red uniform, arms and accoutrements to be worn at this parade. All members are requested to attend. The Commandant trusts that as the difficulty of a good and full "turn out" of a Saturday evening is now removed by the overland mail leaving on Thursday there will be a very large attendance in future on Saturdays, an end most desirable, the annual inspection of the corps being at hand.

By order, W. M. TENNENT,
Capt. and Acting Adjt., B. V. R. C.

GOVERNMENT OF INDIA ORDERS.

IT is too soon as yet to begin to formulate theories with regard to the causes which may have led to the abortive conspiracy at Kolhapur. But it seems reasonable to suppose that the conspiracy in question, miserable as it was in its circumstances, however villanous in its object, is an indication that there is a widespread feeling of unrest in the State, to whatever causes it may be attributed. There has been now for a series of years in full operation in the Kolhapur territories an Alienation Commission only too similar in its general character to the famous Inam Commission which not so very long since carried dismay into the hearts of everyone holding private property in land in the Bombay Presidency. TELEGRAMS.

MESSRS. NICHOLLS' FAILURE, AND CHARGE OF FRAUD.

(FROM OUR OWN CORRESPONDENT.)

ALLAHÁBAD, FEB. 8.

Messrs. Nicholls and Co., bankers, Old Court House-street, Calcutta, have failed. In the Calcutta Police Court warrants were applied for by the Crown Prosecutor against W. Nicholls and George Thompson, the principals of the firm, at the instance of Surgeon Major Watson. The charge was one of fraud in connection with shares entrusted to the firm. Nicholls was said to have left India; a warrant was granted against Thompson.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, FEB. 8.

The Crown Prosecutor yesterday applied for warrants against George Augustus Thompson and W. Nicholls, of the banking firm of Nicholls and Co., on behalf of Surgeon Major George Alder Watson, on a charge of criminal breach of trust in respect to thirty-seven 500-rupee Government, securities deposited with them for safe keeping. It transpired that Nicholls had clandestinely quitted the country, but as there is no direct evidence against him, a warrant was granted for the arrest of Thompson only. The bank was receiving money yesterday, but at the same time declining payments.

STEAMER REPORT.

COLOMBO, FEB. 8, 6-54 P. M.

H. M. S. Dragon, from Zanzibar, arrived.

HER MAJESTY'S gun-boat Ready, Captain H. H. Edward, arrived in Bombay harbour yesterday from Muscat, which port she left on the 1st instant.

THE Governor-General in Council has extended the exemption from all customs duties notified on the 13th March, 1879, in notification No. 59 (Sea Customs) to the class of grey cotton piece-goods known as dhoties and dhoti-bordered piece-goods which contain no yarn of higher number than 30's except in the border, when such border, whether coloured, white, or grey, is not more than four-and-a-half inches in width. This notification takes effect on and after the 10th instant.

NEARLY four hundred ladies attended Lady Ripon's drawing-room on the 3rd instant. The drawing-room was followed by a large evening party.

THE annual distribution of scholarships and prizes at the Grant Medical College takes place at 4-30 p.m. to-day, His Excellency the Governor presiding.

THE Lahore paper hears that Sirdar Omar Khan, who was lately summoned from Amritsar by the Ameer, is seriously ill, and that Sirdar Sahib Jan Khan, a cousin of Abdul Rahman Khan, has been dismaded by the latter from an intention to proceed to Kabul. The reason alleged is the enmity of the Shiahs to the family of Mahomed Afzul Khan.

HIS EXCELLENCY the Viceroy and Governor-General in Council is pleased to recognize the appointment of Mr. J. C. Shaw as Consul for Belgium at Madras.

A YOUNG policeman who was riding from Oomrawuttee to Elichpore on a camel is, according to the correspondent of a vernacular journal, missing. Neither the sowar nor the camel have yet turned up, though some clothes which were on the person of the rider were found in a ginger.

A MAHRATTA school-master named Gunpati Deshmookh, teacher in the Government school of Patoordagaum, in Jalgaum, the Berars, has been sentenced to death for the murder of one of his pupils. A native writer states that the boy was about nine years old, of the Marwarri caste, and was murdered for the sake of the jewels he had on his person. The murderer is said to have attempted to charge the crime on another teacher in the school.

A VALUABLE Arab horse, belonging to Captain Campbell, of the 1st Punjab Infantry, was stolen by a band of robbers from Kohat on the night of the 29th January. The same thieves also drove off a second horse the same night. Both animals were, however, recovered the following day through the activity of the district authorities, who turned out the villagers and held all the roads and passes near the border.

HIS HIGHNESS the Maharaja of Kashmir, it is stated, has obtained the permission of Government to engage five more Europeans, in addition to the Frenchmen already in his service in connection with the manufacture of wine. These men are to be employed in the sugar-factory which His Highness has started.

CAPTAIN CAREW, Superintendent of Marine, who has hitherto enjoyed the title of Commander, I. N., has been promoted to the rank of Captain, which rank will be restricted in future to the Superintendents only, the officers in command of Government vessels bearing the title of Commander.

THE weekly report of the Home, Revenue, and Agricultural Department on the condition of the weather, prospects of the crops, &c., throughout India, states that there was no rain during the week, though clouds are hanging about. Irrigated rabi promises to be a good crop, but unirrigated crops are withering from want of water. Sugar-mills have begun to work. Cattle are beginning to suffer from want of fodder. The demand for labour is slackening, but there is as yet no serious or general distress. Markets continue well supplied, and prices show a tendency to fall. Small-pox is reported from parts of Agra and Cawnpore, and measles from Gorakhpur and Allahabad; otherwise the general health is good. Cattle-disease has broken out in parts of Agra, and continues in Kumaun and Jhansi.

A CORRESPONDENT of the Lahore paper at Maiwand telegraphed through Kandahar, Feb. 3:—All is quiet on this side the Helmund and Zamindawar. Shirindil Khan, who had difficulties at Tirin through the hostile attitude of his subjects, has re-established his authority. Ringleaders have sent in apologies to Kandahar; over forty Zamindawar maliks came into camp and gave assurance of good will towards the Government. The Maiwand pass, which was closed by marauders, has, since our arrival, again become safe for traffic. Kafilas continue daily to pass through. The appearance of small caravans proves that the country beyond is safe. Hashim Khan is at Farrah and Ayoub Khan at Herat. The news of the abandonment of Kandahar has caused a great impression and much tension throughout the country. Each faction is anxiously watching the final decision. Ayoub's influence and popularity are much greater than those of Abdul Rahman. Kabul news is better. The Ameer is apparently not encountering such trouble as before. But the people of the Jellalabad districts refuse to pay revenue. Supplies at Maiwand are coming in plentifully, except bhoosa. A large caravan left Kandahar for Herat a week ago. In the direction of General Burrows's retreat, two miles from the battlefield, nearly fifty European bodies have been found and buried.

THE *Civil and Military Gazette* continues to look forward confidently, almost hopefully, to the fall of Abdul Rahman and the renewal of troubles in Afghanistan. In a recent issue we read:—It would be easy—but wrong—to dismiss the reports of the Ameer's intended journey towards India as bazaar gossip, and nothing more. There can be no doubt that Abdul Rahman is prepared for the eventuality. We have learned that one of his most trusted officers—a confidential agent who is continually at His Highness's Durbar, but whom we need not specify more definitely, has written to certain parties in India to that effect. For the present the country in the immediate neighbourhood of Kabul is loyal to the Ameer, at all events it tolerates him; but even that very confined territory will become too hot for him, on the very first successful move by one or more of the popular leaders—Mahomed Jan, Ayoub, or Mr. Griffin's old crony Hashim.

THE following is the full text of the Government of India's resolution on the appointment of Captain Cole as Curator of National Monuments:—Her Majesty's Secretary of State having sanctioned the appointment of a curator of ancient monuments, whose duties will be to superintend under the Supreme Government the conservation of the most celebrated and important examples of national archæology and architecture throughout India, the Governor-General in Council is pleased to appoint Captain H. H. Cole, R.E., to be Curator, and to direct him in communication with the local Governments and Administrations to inspect the principal monuments throughout India, the historical and archæological value of many of which have been brought to notice by General Cunningham and the other officers engaged in the archæological survey of India, in order to frame a scheme for their protection and conservation. The national buildings of the Indian Empire are so numerous and so valuable, as well from an archæological as from an artistic point of view, that the Governor-General in Council feels confident of meeting with ready co-operation from all the Provincial Governments, and desires that all possible assistance may be afforded to the officer to whom the organization of the new department is confided. The appointment of Captain Cole was notified in the *Gazette of India* of the 29th ultimo.

REPLYING to some recent ungracious remarks by the *Pioneer* regarding Mr. Robert Knight's appeal to "the princes and people of India" for subscriptions to aid him in defending the action against the London *Statesman*, the Calcutta paper of the same name writes:—As to the propriety or otherwise of the "appeal" the public will judge, and we have nothing to say. The *Pioneer* is perfectly entitled to express its opinion on a matter which has been prominently brought before the public, and, to say the truth, we rather welcome the *Pioneer's* opposition, which is always helpful to a good cause. But the paragraph we have quoted is worthy of closer examination than we have time to bestow upon it. It is only necessary, however, to point out that it is based upon the common official maxims that to expose defects in our Government with the object of getting them removed is disloyalty, and that to divulge the misconduct of an official is to undermine the fabric of our Empire. Is the *Pioneer* quite sure that it is not itself guilty of calumny when it accuses Mr. Knight of seeking to stir up, among those to whom his appeal is addressed, hostility and resentment against the British authorities, and slightly presumptuous in assuming that the objects of the so-called calumnies are innocent? However that may be, we are glad to learn that the "British authorities" in England take a very different view of Mr. Knight's services to India from that of the *Pioneer* and those whom it tries to represent. We believe he has the expressed sympathy of several members of the Government, and those among the most powerful of them. Such men as Mr. Gladstone, Earl Granville, the Duke of Argyll, and Mr. Bright have shown that they regard him as a useful friend to our Government and not as an enemy, and his relations with the India Office are of the most cordial nature. We have seen letters to him from an official of high standing in the India Office, with reference to this very libel case, expressing the greatest surprise that such a prosecution had been instituted, and the greatest interest and sympathy. A like sympathy has been expressed even by men who have been distinguished in the Indian services. One of the ablest of former Residents at Hyderabad—we do not know why we should conceal the name of Sir George Yule—has, we believe, volunteered to give evidence for the defence. We should not have mentioned these matters—we feel indeed that there is a certain appearance of impropriety in so doing—had it not been that the remarks of the *Pioneer* are maliciously intended to frighten people in this country from expressing sympathy with Mr. Knight, by creating the opinion that to do so will be to incur the displeasure of the Government.

THE *Statesman* further remarks:—The postponement of Mr. Knight's case will be of the greatest advantage to the defence. Very important materials for the defence are, we believe, now on the way from India to England, and the delay will, we may hope, give time for them to arrive and receive the careful attention of counsel before the case can be brought on. By this time, we imagine, there are others, besides the Nawab, who bitterly regret that action has been taken, for, whatever may be the result as regards Mr. Knight, it is pretty certain that some very unpleasant revelations will be made as to Hyderabad affairs, and it is to be feared that some British officials may not be happy when the case is over, any more than the Ameer-i-Kabeer himself. It is possible that the case may prove of very highest service to the British Government in this country, by compelling enquiry into the nature and habits of the Indian Foreign Office and the political service. Next to the condition of the masses under our rule, the character of our relations with the Native Courts is perhaps the most important question affecting the future of our Indian Empire. And if this case should lead to the exposure of abuses and some steps in the way of reform, Mr. Knight will consider his own trouble in the matter richly rewarded."

AN ENQUIRY AGAINST A MEMBER OF THE BAR.

YESTERDAY afternoon an enquiry *in camera* was held in the Judges' Library at the High Court, touching certain allegations made against a member of the Bombay Bar (Mr. A. B. Capadia) in connection with his office as one of the official liquidators of the East India Bank. The different courts were closed after they rose for luncheon to admit of the judges attending the enquiry. At 3 p. m. the Chief Justice, Sir M. R. Westropp, and other judges came from their respective chambers into the library, where the necessary arrangements had been previously made by Mr. J. W. Orr, the Prothonotary. The Chief Justice presided; and there were also present Sir Charles Sargent, Mr. Justice Bayley, Mr. Justice West, Mr. Justice Melvill, Mr. Justice Birdwood, and Mr. Justice Nanabhai Haridas,—the seven judges thus constituting the court of inquiry, which the Reporters of the Press were refused permission to attend. The Hon'ble Mr. Marriott, Advocate General, appeared to represent the Bar, while Mr. Budroodin Tyabjee, instructed by Mr. Cleveland, of Messrs. Hearn, Cleveland, and Little, appeared on behalf of Mr. Capadia. Mr. C. A. Turner, the present official liquidator of the East India Bank, was also present. The enquiry originated thus. Some months ago Messrs. Capadia and Dinanath Rughunath Khote, the former liquidators of the East India Bank, were, at the instance of the present liquidator, examined in court before Mr. Justice Bayley with reference to a sum of one lakh of rupees which Mr. Nusserwanjee Ardasir Wadia is alleged to have received from Mr. Kessowjee Naik with the object of getting a claim of the bank against him compromised. Mr. Nusserwanjee Wadia denied that he ever received any moneys from Mr. Kessowjee Naik which should have gone to the bank; and the liquidators averred that if he did receive any moneys as alleged, it was without their knowledge or consent. The evidence given by Mr. Capadia before Mr. Justice Bayley having been brought to the notice of the Chief Justice, his Lordship, through the Prothonotary, required him to attend before the judges and give explanations on certain points. The required explanations were given yesterday in a long affidavit made by Mr. Capadia. At the close of the enquiry, we hear, Mr. C. A. Turner was directed to make an affidavit on certain points, to which Mr. Capadia is to reply in another affidavit. The enquiry will be resumed next Tuesday.

BOMBAY MISSIONARY CONFERENCE.

THE second day's meetings of the present series commenced yesterday moning with a prayer meeting in the Free Church Mission House, at which Major Oldham presided. At the meeting which followed addresses were delivered by the Revs. Messrs. Demiler, Jacobs and Jani Ali. The members of the conference and a few friends thereafter took breakfast together. The public missionary meeting of the evening was held in the Grant Road Theatre at 8 p. m., when the Rev. Dhanjeebhoy Nowrojee, Chairman of the conference, presided, and delivered an interesting and impressive address on the true unity existing between Christians of all churches and the progress of mission work. The Rev. George Bowes followed with an address on "Street Preaching," a matter which he could handle well from his long experience of work in Bombay, now reaching over thirty years. The next address was given by Major Oldham, R. E. He spoke on the relations of the Christian laity to the mission work, and earnestly urged on all their responsibility to aid and sympathise with missionaries. A choir under the leadership of Mr. W. Simpson led the service of praise, and sang to anthems. The theatre was well filled in all parts.

THE BHUNDARWADA RESERVOIR.

THE Bhundarwada project was originated by Mr. Braham during the latter part of the year 1876. A report was then published by him setting forth the advantages of the scheme. Mr. Pedder, who was Municipal Commissioner at the time, recommended that when funds were available it should be regularly considered, and, if approved, adopted and carried out. A resolution of the Town Council, dated 18th November, 1876, thanked Mr. Braham for his able report, and recommended that his proposals should be considered with a view to being carried out, if funds were available from the new loan, after the completion of the Tulsi water-works.

In December, 1877, Mr. Ravenscroft, who was then Municipal Commissioner, requested Government to furnish the Town Council with a report by the Drainage Commission or by the Irrigation Department on the scheme. Mr. Hart, C. E., the chief Engineer for Irrigation, reported in January, 1878, favourably upon it. Subsequently, on the 26th August, 1878, on the motion of Mr. Nowrojee Furdoonjee, seconded by Mr. Shantaram Narayen, the Corporation sanctioned the raising of a loan of ten lakhs for the carrying out of the work. The Hon. Rao Sahib V. N. Mandlik and these gentlemen have from the first taken a lively interest in the scheme, as well as in all other improvements calculated to ameliorate the condition of the inhabitants of Bombay.

In 1878, after Mr. Forde, C. E., was appointed Consulting Engineer to the Municipality, the project was referred to him for report. He presented his report in June, 1879, suggesting certain modifications. In July, 1879, Mr. Walton wrote an exceedingly able report on the whole question, and discussed the water-supply of the city in all its bearings. He approved generally of the Bhundarwada project. The works as now designed by Mr. Braham consist, on the Bhundarwada hill, of a storage reservoir and settling tank, 350 feet long by 150 feet wide by 30 feet in depth. The 32 in. main from Vehar is cut off from the distributing mains of the city, and brought direct into this reservoir near the bottom. The water overflows from the reservoir into filter-beds composed of sand and gravel laid on a series of brick drains. There are six of these filter-beds, the dimensions of each being 200 ft. by 84 ft.; five only will be working at one time, the sixth being shut off from the reservoir to undergo a process of cleaning. The water, after passing through the filter-beds, is conducted into a capacious covered reservoir having a storage capacity of 5½ million gallons. From this it is connected with the distributing mains of the city by means of a large cast-iron pipe 48 inches in internal diameter. The two reservoirs and filter-beds on Bhundarwada hill will hold more than 16 million gallons of water, or about two days' of the Vehar supply to the city.

The estimated cost of these works is Rs. 6, 30,000. In addition to this Rs. 3,70,000 is available from the ten lakh loan mentioned above for the water mains, sluices, &c., to complete the scheme. The main objects of the scheme are—first, to filter and purify the Vehar water; second, give a greatly increased and constant pressure throughout the city, so as to enable the people to get their supply of water at the times they require it; third, to prevent the influx of sewage, and foul sub-soil water into the mains and service pipes by keeping them constantly charged under pressure; fourth, to provide an increased supply of water at high pressure for the extinguishment of fires. Dr. Weir has repeatedly urged the necessity of filtering the Vehar water, and on sanitary grounds generally advocated the urgency for the improvements to the Vehar water supply now being carried out. He has thus added another to the many services he has conferred on the city as Health Officer. The works have been simply and economically designed, and the drawings, specifications, and estimates have been carefully elaborated. Mr. Braham has had the advantage of consulting Mr. Forde repeatedly in the preparation of them, and acknowledges the great assistance his advice and suggestions have been to him in doing so.

The contract for the carrying out of that portion of the scheme comprised in the works on Bhundarwada hill has been entrusted to Messrs. Yellapa Ballaram and Co., contractors of repute and well known in Bombay. They commenced operations in May, 1880, and are conducting the works with much energy.

CHARGES AGAINST AN OFFICER.

AT a general court-martial, assembled at Mooltan on the 10th day of January, 1881, Captain John James Money-Simons, 24th Regiment of Bengal Native Infantry, was charged with conduct to the prejudice of good order and military discipline, in the following instances:—

First,—In having, when in command of a detachment on the line of march from Afghanistan to British India, on the 2nd or October, 1880, upon a hasty and wholly insufficient enquiry, ordered Khodadad Khan, a sepoy of the 24th Regiment of Bengal Native Infantry, to be flogged for the alleged offence that he had omitted to obey the detachment order which prohibited any soldier from riding in a cart without permission of competent authority, whereas he, Khodadad Khan, had in fact received the permission of Hospital Assistant Mahommed Yassein Khan, of the Subordinate Medical Department, to ride on a hospital cart, because he, Khodadad Khan, was suffering from a sore heel, the said Mahommed Yassein Khan being under such conditions competent authority.

Second—With having, when in command of a detachment on the line of march from Afghanistan to British India, on the 2nd of October, 1880, administered corporal punishment to Khodadad Khan, a sepoy of the 24th Regiment of Bengal Native Infantry, illegally, that is to say, without trial.

Third—With having, when in command of a detachment on the line of march from Afghanistan to British India, on the 2nd of October, 1880, administered corporal punishment to Khodadad Khan, a sepoy of the 24th Regiment Bengal Native Infantry, upon the bare posteriors, instead of on the bare back, in accordance with the usage of the service, by which conduct he, Khodadad Khan, believed that a stigma was cast upon him, and that he was disqualified in the eyes of his comrades.

The Court found Captain Money-Simons was not guilty of the first instance of the charge; guilty of the second instance of the charge; not guilty of the third instance of the charge; guilty of the preamble of the charge as respects its application to the second instance of the same only; and sentenced him to be reprimanded.

In confirming the decision the Commander-in-Chief gives the following reasons for commuting the court-martial sentence of death on Khodadad, the sepoy concerned in Captain Money-Simons' case, for firing at a superior officer:—"In my minute on the proceedings of the general court-martial held on Khodadad, sepoy 24th Punjab Native Infantry, I stated that my reasons for commuting the sentence to transportation for life would be published to the Army. Those reasons are contained in the proceedings of the present court-martial on Captain Money-Simons, who has been convicted of conduct to the prejudice of good order and military discipline, in having illegally flogged Sepoy Khodadad. Although it is not my justification, yet when I was called upon to confirm the sentence of death, I was confronted with the fact that the crime of the prisoner had its origin in the illegal act of his superior officer, Captain Money-Simons, and I was constrained by this fact to commute the sentence to transportation for life."

BOMBAY GYMKHANA GOLF.

WIMBLEDON CHALLENGE CUP.

The "Wimbledon" challenge cup was presented to the Gymkhana by the Royal Blackheath Golf Club. Its present holder is Mr. Arthur. The first round was played yesterday morning, and from the scores given below it will be seen that it is a very close affair. Mr. Gardner at present stands to win; but the five eight players are within three points of one another, and it is very difficult to pick out the probable winner. The match will be concluded this morning.

INFORMATION WANTED.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Will you, or any of your readers, be so good as to inform me if any steps have been taken by Calcutta and Madras in the matter of the abolition of the honorary surgeoncies in the Subordinate Medical Department by the Government of India? As also whether any central committee has assembled, and where, to deliberate on a joint memorial to the Secretary of State? It is intended to form a committee in Bombay for the purpose, and it is hoped that the senior members of the service will take sufficient interest in the matter to promote the object in view. Any information or suggestion towards this object will be thankfully received by

ONE INTERESTED.

SATURDAY HALF-HOLIDAY.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Now that the departure of the overland mail for Europe has been fixed for Tuesdays and Thursdays in the monsoon and fair seasons respectively, an opportunity has occurred for the introduction of a "Saturday early-closing movement." It is unnecessary here to point out how much such a movement would be appreciated if universally adopted, especially by volunteers. There is no better way of bringing the subject to the notice of heads of firms, &c., than by your columns; and I, in common with hundreds of others, would feel grateful if the boon of a Saturday half-holiday were given to us,

THE WORK OF THE INDIAN MINTS.

THE following resolution of the Government of India on the administration reports of the Calcutta and Bombay Mints for the year 1879-80 is published:—

The coinage of silver at the Indian Mints during the year under review exceeded that of any previous year since 1865-66 except 1877-78. The increase as compared with the preceding year corresponds nearly with the increase in the net imports of silver. The net imports and coinage of silver in each year from 1874-75 are as follows:—

	Net Imports.	Coinage.
1874-75 ..	464 lakhs.	490 lakhs.
1875-76 ..	153 ,,	235 ,,
1876-77 ..	720 ,,	627 ,,
1877-78 ..	1,468 ,,	1,618 ,,
1878-79 ..	397 ,,	721 ,,
1879-80 ..	787 ,,	1,025 ,,
TOTAL ..	3,991 ,,	4,736 ,,

Besides imported silver the following amounts of bullion in the form of native ornaments, &c., which had been thrown on the market by sufferers from famine in Western and Southern India, were received for coinage in the Bombay Mint:—

1877-78	124 lakhs.
1878-79	116 ,,
1879-80	92 ,,

The Bombay Mint also received native coins of the value of 67 lakhs and 45 lakhs respectively in the two years 1878-79 and 1879-80. These were chiefly Baroda rupees.

The coinage and the receipts and charges of each Mint including *pro forma* charges for interest on the capital sunk and for pensions, leave allowances, &c., for the years 1878-79 and 1879-80, are as follows:—

	Calcutta.		Bombay.	
Coinage.	1878-79.	1879-80.	1878-79.	1879-80.
	Rs.	Rs.	Rs.	Rs.
Tale of pieces of all kinds ..	76,504,971	74,181,243	48,862,807	81,215,596

Copper ..	6,66,475	7,07,900		
Receipts ..	9,11,983	8,57,277	11,30,614	18,51,834
Charges ..	9,99,252	9,40,843	7,77,132	8,83,540
Balance in favor of (+) or against (−) the Mint ..	4,57,267	4,23,566	3,82,482	9,68,294
Ditto ditto excluding *pro forma* charges ..	9,566	+28,865	6,87,925	13,11,172

The silver coinage of the Calcutta Mint in 1879-80 was 213 lakhs, and of the Bombay Mint 812 lakhs. No silver was coined at the Calcutta Mint during the three months, August, September and October.

Second—With regard to the item of receipt being the duty on silver coined, the receipts of the Calcutta Mint are much less than those of Bombay where the greater quantity of silver is imported. The best method of calculating gain on the coinage of copper, which largely enters the Calcutta Mint, has only lately been determined; and the financial result of the operations of that Mint is consequently to some extent under-stated; the gain cannot, however, be so large as to bring about the equilibrium between the receipts and charges. The result for 1878-79 would have been more favourable, had it not been for the unadjusted operative losses of the preceding year brought to account in that year.

The amount of miscellaneous work done in Calcutta is much larger than that done in Bombay. The receipts and charges on account of such work in each Mint were as follows:—

	Calcutta.		Bombay.	
	1878-79.	1879-80.	1878-79.	1879-80.
	Rs.	Rs.	Rs.	Rs.

Miscellaneous ..	7,754	14,699	7,542	4,123
TOTAL ..	23,048	27,637	9,807	6,572

TOTAL ..	15,595	18,423	8,517	5,754
PROFIT ..	7,453	9,214	1,290	818

The percentage of operative losses is widely different in the two Mints. The rate of melting loss was as follows:—

Calcutta	1878-79 ..	1 anna 6 pies.
	1879-80 ..	9·8 pies.
Bombay	1878-79 ..	5 pies (·0269).
	1879-80 ..	5 pies (·0283).

The silver coining loss in Calcutta is calculated to be at the rate of ·0662 per hundred pieces against ·0361 per cent. reported at Bombay. These discrepancies are not explained, and while Colonel Tennant's observation that "the whole process of dealing with the silver is so different in the two Mints that it is not possible to compare the figures obtained for the same operations," is entitled to consideration, the Governor-General in Council is of opinion that the excessive loss in the Calcutta Mint must be to some extent preventible. Colonel Tennant hopes that the melting loss will be somewhat reduced now that coke furnaces are used, and the matter is without doubt one of considerable difficulty, but the Governor-General in Council trusts that Colonel Tennant will continue to give watchful attention to it.

The Governor-General in Council has much pleasure in acknowledging the services rendered by Colonel Tennant and Colonel White.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.—In the Wasting Diseases of Children its efficacy is unequalled. Dr. R. C. Croft, author of "Handbook for the Nursery," writes: "I have tried Dr. de Jongh's Light-Brown Cod Liver Oil, and find that it contains all the properties which render the dark oil so efficacious. Dr. de Jongh's Oil is almost a specific in many of the Diseases peculiar to Infancy and Childhood, and I have seen marked benefit produced by its use. Patients prefer it to the Pale Oils, and are able to retain it more comfortably." Sold only in capsuled imperial half-pints, pints, and quarts by all chemists, druggists, and storekeepers. Sole consignees: Ansar, Harford and Co., 77, Strand, London.

After a while, both rider and pony disappeared, and on a search being made, the boy was found unhurt in a bush down a precipitous part of the hill, while the pony lay stone dead some distance lower down the precipice.—*South of India Observer.*

THE BENGALORE MUNICIPALITY.—A Bangalore correspondent writes to an up-country contemporary :—The intentions of the Supreme Government with regard to the future Municipal administration of Bangalore cantonment were made known at the last meeting of the Municipal board. When the Municipality was remodelled in 1871, an Independent President, on a salary of eight hundred rupees per mensem, was appointed to the board, thus doing away with the old system by which the Cantonment Magistrate was, by virtue of his office, President of the cantonment Municipal Corporation as well. The Government now seek to revert to the old system, and the members of the Corporation have submitted a vigorous protest against the contemplated measure, which they rightly denounce as a retrograde movement. For more reasons than one the dual appointment would be a mistake and a scandal. It is very desirable that the Municipality of a large and growing city like Bangalore should have a full time President; moreover, it would never do for the President, after investigating a Municipal case departmentally, to sit in judgment on it in his magisterial capacity.

COOK'S EXCURSIONS IN INDIA.

In the last edition of the *Excursionist* we briefly intimated the fact that we had sent our own representative to Bombay to carry out a special contract we have entered into with the Italian Government Railway Administrations to act, in India, as the representatives of the whole of the Italian railways, and to inaugurate a branch office in Bombay, and eventually to put into operation a system of tours not only to and through India, but from India to all parts of the globe.

Since the appearance of the preliminary announcements in question, we have received letters from our representative in Bombay assuring us of the favourable manner in which he has been received, especially by residents of India with whom he has had the opportunity of coming in contact, and who express their appreciation of our idea of putting into operation such a system as will enable wealthy residents of India, Parsees, and others, to visit Central Europe, England, &c. He also forwards us Indian newspapers containing very gratifying notices of the commencement of our business in Bombay.

It occurred to us that the visit to Europe of any number of wealthy residents of India might be turned to considerable account, and prove of great value from an international and social, if not a political point of view; and as the present Premier, the Right Hon. W. E. Gladstone, had frequently expressed his admiration of our system, we felt we were justified in informing that gentleman of the proposals we contemplated making to the Indian Government Railway Administrations, and by return of post had the honour of receiving a very gratifying letter, by which Mr. Gladstone expressed his willingness "to introduce the subject to the India Office, with a statement that, in his opinion, your proposals well deserve the most favourable consideration that circumstances will permit, on account of the real public value which attaches to your successful efforts for promoting intercommunication between countries."

About the same date we were favoured by a request to meet the Marquis of Salisbury at his town residence to arrange for the conveyance of his lordship and family to the South of France, and our managing partner took the opportunity of explaining our intentions with respect to India. His lordship at once voluntarily expressed his opinions upon the subject, and offered to express his views to the India Office.

In due course we received an appointment with Sir Louis Mallet, the Under-Secretary of State for India, who received us most favourably, and from the views he expressed we have not the slightest doubt that we shall be justified in announcing very special facilities to the residents of India to induce them to visit Europe, and especially England, *en route* to any other part of the globe.

During the forty years this business has been in operation we have prided ourselves upon accomplishing all the objects we had in view without asking for the slightest assistance from any representative of the English Government, but as we were going to India specially to represent the Italian Government, and as the opening out of our business in India presented several very important aspects, we considered we were justified in departing from our rule and ascertaining whether the English Government were not prepared to recognise our services in so important a business.

The reply received from the Premier proves that we were justified in making such an application, and the probabilities of success of the Indian business are so great that our managing partner proposes leaving England as early as possible in January for a hurried run to Bombay for the special purpose of completing arrangements that will have been entered into by our representatives, and prior to his departure we shall be glad to receive from any of our travelling friends hints or suggestions that may be of service in developing so important a future of our business.—*Cook's Excursionist* for December.

BOMBAY RACES.

CHRONOGRAPH WATCHES
FOR RACES.

THE new Pocket CHRONOGRAPH WATCH, INVENTED and MANUFACTURED by Messrs. F. L. & Co., is not only the BEST, but also the CHEAPEST ever offered for sale.

The Watch had a marked success at the Bombay Races in January last, and also at the Secunderabad, Mhow, Meerut, and Calcutta Races, and Gentlemen connected with Racing will be glad to learn that a fine supply is again to hand.

IN GERMAN SILVER CASE ... ...Rs.	80
„ FINE „ „ ... ... „	85
„ 18-CARAT GOLD „ ... ... „	150

Description :—The Watch is middle-size, keyless, patent lever, crystal glass front and back, going 32 hours.

There are two dials, one in front with the hour, minute, and short second hands, the other is on the back of the watch divided in seconds and fractions of a second. Over it runs the long second or chronograph hand. This dial is cut out from the centre up to near the seconds, having the whole chronograph mechanism visible to the eye.

On pressing on the winding nut the second hand will start from the fig. 12, on pressing again the hand will stop immediately, on pressing a third time the hand will fly back to the starting point. In a case of false start this peculiarity of the watch is invaluable.

We guarantee the watch to regulate within a few seconds in 24 hours, the difference in time for 5 minutes being therefore only from 0·02 to 0·05 of a second, a result impossible to arrive at with chronographs going only from 15 minutes to 2 hours.

CHAMPAGNE SHIPPERS

TO HER MAJESTY THE QUEEN, HIS ROYAL HIGHNESS THE PRINCE OF WALES, AND

THE ROYAL FAMILY.

"Amongst the many brands of Champagne, good, bad, and indifferent, it is often rather puzzling to know which to choose, but when a Wine rapidly rises into fame, and is acknowledged by Connoisseurs to be of the highest quality, it may be inferred that but little risk can be run in ordering it. This is the case with the Wine of WACHTER & Co., of Epernay, which has of late been so patronised by Royalty that it may fairly claim to be called Royal Wine."—MORNING POST.
